DETAILED ACTION

Double Patenting

1. Claims 1, 2 and 4-7 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,790,814 in view of WO 97/11151 for the reasons of record in the previous office action.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-7 remain rejected under 35 U.S.C. 103(a) as being unpatentable over WO 97/11151 for the reasons of record in the previous office action.

Response to Arguments

4. Applicant's arguments filed September 12, 2005 have been fully considered but they are not persuasive. Applicant argues that the present claims are drawn to optimization of a variable not recognized in the prior art as a result effective variable. Applicant appears to accomplish this by entrapping or encapsulating a fragrance and adding the fragrance complex to a cleaning composition. This is notoriously well known in the surfactant art, regardless of whether or not anyone has previously studied the kinetics of perfume release in wet and dry fabrics. Furthermore, the examiner has shown that compositions having the same structural features as those in applicant's

Art Unit: 1751

specification can be made by following the teachings of the prior art. As a result those compositions will have or can have the properties recited by applicant. If applicant can demonstrate that the prior art compositions do not possess those properties, such would be afforded patentable weight.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
